

Marko Pogačnik UNESCO artist for peace

Workshop **Latvia**

20-23 July 2017

WORKING WITH THE SUBTLE DIMENSIONS OF THE LANDSCAPE TO GET A BETTER APPROACH TO ONE'S OWN BEING

I perceive Latvia as a strong threshold between the great Russian plain focussed on the element of Earth and the Baltic region which is home of the element of Air and of the Gaia centred consciousness.

The Latvia workshop can offer important aspects of experience:

- How to transform the bodily sensations into conscious multidimensional perception.
- The region where we will be working represents a door into the inner worlds of the Baltic sea. It is possible to enter into the Baltic underground regions and to experience the elemental beings working there.
- The part of Latvia where we will be working enables also to experience the white light of the northern regions of Europe and at the same time to work on the personal grounding.

Marko has developed different tools of perceiving and working in the landscape, among them the Gaia Touch body exercises and methods of enlarged perception. His way of work is simple so that everybody interested can cope with it. www.markopogacnik.com

Arr: Alda association for geomancy. The workshop is in English.

We'll stay at "Valguma Pasaule" a wonderful recreation center by a bathing lake in a nature reserve 60 km from Riga www.valgumapasaule.lv

We'll start 20th July 7 pm with dinner and finish 23th July 3 pm.

Workshop fee 3 days incl. lunch and dinner: 342 €

Three nights in 2 - or 3 beds room with breakfast: 60- 96 €
